Skills

Programming & Development

- Node.js, Express.js, JavaScript, TypeScript, Python
- RESTful APIs, Data Migration

Databases & Cloud

- PostgreSQL, MongoDB, Redis
- Amazon Web Services (AWS)

DevOps & Tools

- Docker, GitHub, CI/CD
- API Testing (Postman, API Dog)

Project Management & Methodologies

- Agile, ClickUp

Education

Bachelor Of Technology (B.tech)

Bapatla Engineering College, Bapatla
2020-2023 | CGPA 8.01

Electrical & Electronics Engineering (EEE)

Certifications

- AWS Certified Cloud Practitioner - AWS
- Node.js Certification - HackerRank
- JavaScript Certification - HackerRank
- SQL Certification - Coursera
- Cloud Computing Certification - PrepInsta
- ClickUp Expert Certification - ClickUp
- Communication Skills Certification - TCS iON
- Data Analytics and Visualization Certification - Accenture (Forge)
- Agile Methodology Certification - Cognizant (Forge)

Languages

English, Hindi, Telugu

Professional Summary

Software Developer with 2 years of experience in a **product-based** company. Skilled in **Node.js**, **JavaScript/TypeScript**, **PostgreSQL**, **MongoDB** and **AWS**. Strong understanding of **RESTful APIs**, data migrations and cloud services. Passionate about making a meaningful contribution to a collaborative team.

Professional Experience

Associate Software Engineer at CareMonitor

Sydney, Australia (Remote)

May 2023 - Present

- Developed **RESTful APIs** using **Node.js** and **Express.js** for patient management, appointment scheduling, and program tracking in a healthcare platform.
- Optimized **PostgreSQL** queries, reducing API response times by 20% through **indexing** and query optimization.
- Collaborated on ER diagram design for relational database schemas, ensuring efficient data architecture.
- Developed and executed data migration scripts using **Node.js**, **TypeScript**, and **PostgreSQL**. Migrated 5,000+ assessments and 43,000+ clinical metrics successfully.
- Utilized **AWS** services (**S3 & EC2**) and automated S3 data management using custom scripts.
- Integrated **AWS SES** for transactional emails such as user sign-ups and password resets.
- Containerized applications using **Docker** and facilitated smooth CI/CD pipelines for seamless deployments.
- Performed API testing using **Postman** and **API Dog** to ensure reliability and functionality.
- Participated in deployment meetings, sprint planning, Scrum of Scrums, and Dev Guild discussions, providing feedback and prioritizing bug fixes.

Projects

Tour Web Application (Natours) - Project Link: [Project Link](#)

- Full-stack tour application with RESTful APIs, filtering, JWT authentication, user management, and email integration.
- Enhanced security by implementing protections against DDoS, XSS, and brute-force attacks. Deployed via **Heroku** CI/CD.

Recipe Web Application (Forkify) - Project Link: [Project Link](#)

- Recipe app using an external API with features like search, pagination, dynamic updates, bookmarks, and recipe uploads.
- Implemented local storage, AJAX and dynamic state management to enhance user experience. Deployed via **Netlify** CI/CD.

Mapty Web Application- Project Link: [Project Link](#)

- Tracks running & cycling workouts using the Geolocation API & Leaflet with dynamic map markers and persists data via Local storage.
